RECPT #

ACIS - 1789/86-b
14 November 1986

NOTE FOR: Chairman, Joint Atomic Energy Intelligence Committee
FROM: Chairman, Strategic Arms Monitoring Working Group
SUBJECT: Congressional Briefing

1. This note asks for a bit of your help.
2. Attached is a copy of a note I received about an upcoming briefing of the key staff officers for the House Foreign Affairs Committee.
3. It is my sense that this briefing should be done in our interagency capacity, rather than solely for CIA people expressing CIA's views.
4. It is my opinion that I/we will need the following people with me/us:
 - Someone deputized for Ch/JAEIC (if the Chairman cannot attend);
 - An experienced NPIC officer;
 - An experienced NSA officer; and,
 - An analyst from DIA who can contribute.
5. If you have any questions, please call.
